DeveloperBee

DEVELOPER BEE

TECHNOLOGY COMPANY

www.developerbee.digital

About DeveloperBee

Just like a hive, DeveloperBee brings focused teamwork and tireless dedication, specializing in Machine Learning and Cyber Security. We engineer intelligent systems and are the architects of your digital defense, committed to delivering operational efficiency and fortified security to help your business thrive.

www.developerbee.digital
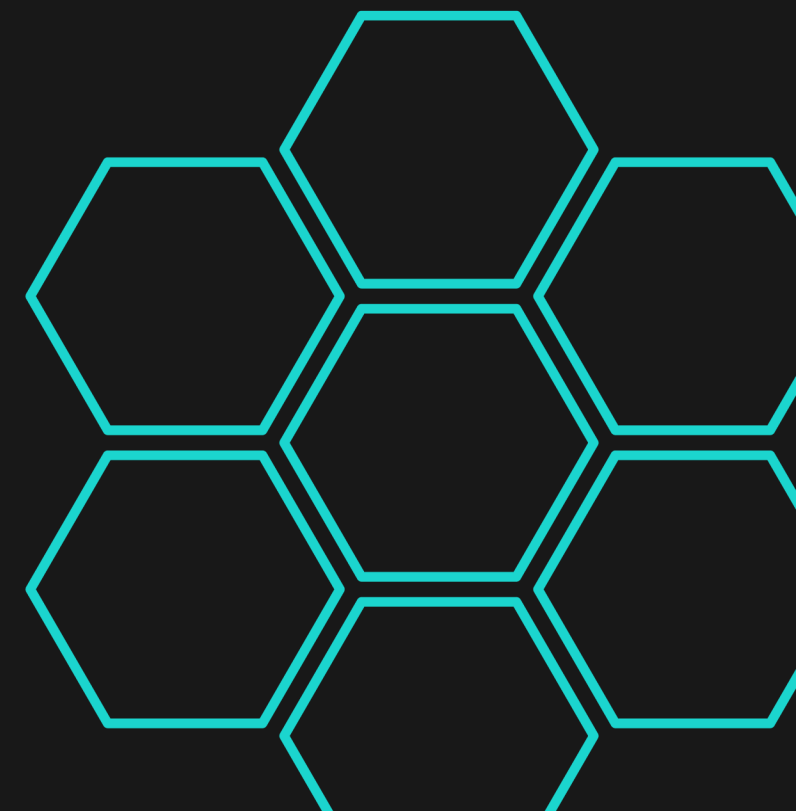

Why Choose DeveloperBee?

The Business Challenge
(What You Need)

- **Risk Mitigation**: Protection against advanced cyber threats (ransomware, data breaches).
- **Operational Intelligence:** Data-driven automation and decision-making.
- **Efficiency at Scale**: Self-optimizing digital platforms for peak performance and growth.

DeveloperBee's Expert Solution
(What We Provide)

- **Intelligent Systems**: AI/ML models (TensorFlow, PyTorch), workflow automation (n8n, Zapier), data visualization (Tableau, Power BI).
- **Fortified Defense**: Red-team security protocols (Kali Linux, Metasploit).
- **Engineered Growth**: UX/UI design (Figma, Adobe XD), data-driven SEO (Semrush, Ahrefs).

www.developerbee.digital

What DeveloperBee do?

Intelligence & Automation

- **AI/ML Solution Development**: Custom models and predictive analytics (TensorFlow, PyTorch).
- **Data Science & BI: Advanced** data reporting and strategy (Tableau, Power BI).
- **Workflow Automation**: Building intelligent, self-optimizing integrations (n8n, Zapier).

Cyber Security & Digital Defense

- **Vulnerability & Pen Testing (VAPT)**: Proactive security audits and threat elimination (Kali Linux, Metasploit).
- **Network Forensics & Monitoring**: Real-time analysis and security management (Wireshark).
- **Secure IoT Infrastructure**: Design and protection for connected systems (AWS IoT Core).

Digital Presence & Growth

- **UI/UX Design & Strategy:** Creating high-converting user experiences (Figma, Adobe XD).
- **Web & Mobile Development**: E-commerce, CMS, and custom mobile application solutions.
- **Advanced SEO & Marketing**: Data-driven search strategy and marketing automation (Semrush, Ahrefs).

OUR TECH STACK

Automation:
- n8n
- Zapier
- Make (Integromat)

IoT Solutions:
- Arduino
- Raspberry Pi
- Node-RED
- AWS IoT Core

UI/UX Design:
- Figma
- Sketch
- Adobe XD
- InVision
- Framer
- UXPin
- Maze
- Miro

SEO :
- Semrush
- Ahrefs
- SurferSEO
- Google Search Console
- Moz
- Screaming Frog

AI & Machine Learning:
- TensorFlow
- PyTorch
- scikit-learn
- OpenAI
- Hugging Face

Cybersecurity:
- Kali Linux
- Wireshark
- Metasploit
- Burp Suite

Data Science & Analytics:
- Jupyter
- Tableau
- Power BI
- Looker Studio
- Google Analytics

Marketing:
- HubSpot
- ActiveCampaign
- Omnisend
- Marketo
- Mailchimp

Editing & Recording:
- Adobe Premiere Pro
- Audacity
- Descript
- LALAL.AI

Our Services

Web & Mobile Development

E-commerce, CMS, and custom mobile application solutions.UI/UX Design & Strategy: Creating high-converting user experiences (Figma, Adobe XD).

AI/ML Data Science & BI

Custom m2odels and predictive analytics (TensorFlow, PyTorch). Advanced data reporting and strategy (Tableau, Power BI).

Cyber Security Network Forensics

Vulnerability & Pen Testing (VAPT): Proactive security audits and threat elimination (Kali Linux, Metasploit). Real-time analysis and security management (Wireshark).
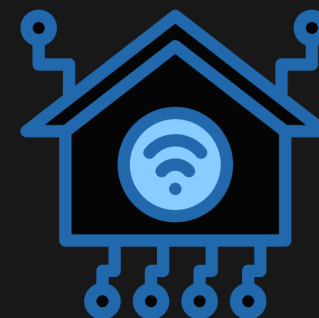

Advanced SEO & Marketing

Data-driven search strategy and marketing automation (Semrush, Ahrefs).

Secure IoT Infrastructure:

Design and protection for connected systems (AWS IoT Core).

App Development

...

"Scalable, High-Performance Mobile Solutions"

Android

- Tech Stack: Kotlin, Java
- Frameworks: Flutter, React Native
- Backend: Firebase, Node.js, Django
- Tools: Android Studio, Appium, Jenkins
- Focus: Scalable, customizable, wide device compatibility

iPhone

- tech Stack: Swift, Objective-C
- Frameworks: SwiftUI, React Native, Flutter
- Backend: Firebase, AWS Amplify, Node.js
- Tools: Xcode, TestFlight, GitHub Actions
- Focus: Premium performance, security, App Store optimization

Value:

- Native & Cross-Platform Solutions
- Secure, Scalable, and High-Engagement Apps

Web Development   ...

Web Development – Build Fast, Scalable & Beautiful Websites

🔷 Frontend

- HTML5, CSS3, JavaScript (ES6+)
- Frameworks: React.js, Angular, Vue.js
- Tools: Figma, Tailwind CSS

🔷 Backend

- Node.js, Django, Laravel
- Databases: PostgreSQL, MySQL, MongoDB
- APIs: REST, GraphQL

🔷 DevOps & Hosting

- Docker, Kubernetes, Jenkins
- AWS, Azure, Google Cloud

Technologies & Tools We Use

React | JS | DB

Value:

- Scalable & High-Performance Websites
- Secure E-commerce & CMS Solutions
- Optimized for SEO & User Experience

Data & Business Analytics ...

Business Intelligence (BI)

- Interactive Dashboards & Reporting (Tableau, Power BI)
- KPI Tracking & Forecasting
- Data-Driven Strategy & Insights

Data Engineering

- ETL Pipelines (Airflow, Talend)
- Data Warehousing (Snowflake, BigQuery, Redshift)
- Cloud Integration (AWS, Azure, GCP)

Value:

- Actionable Insights for Smarter Decisions
- Scalable Data Infrastructure
- Competitive Advantage through Analytics

Series 1

IData Engineering

Data-Driven Strategy

Data Warehousing
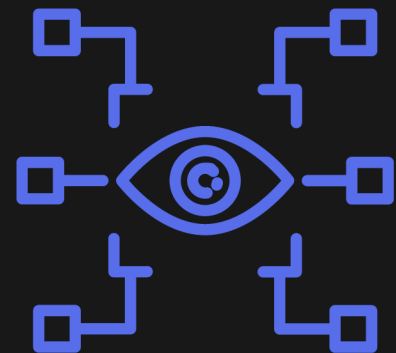

KPI & Forecasting

Cybersecurity

...
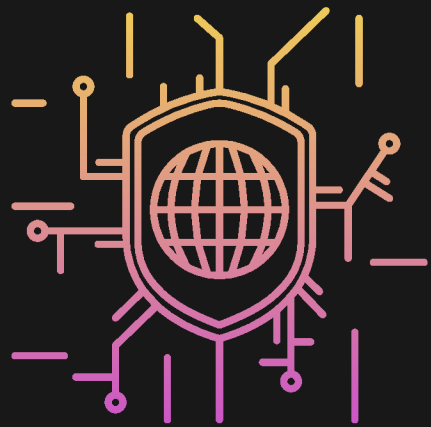

Vulnerability Assessment & Pen Testing (VAPT)

- Red-team Security Protocols (Kali Linux, Metasploit)
- Proactive Threat Detection & Elimination

Secure Infrastructure

- IoT & Cloud Security (AWS IoT Core, Azure Security)
- Identity & Access Management (IAM)

## Network Security & Monitoring

- Real-time Forensics & Traffic Analysis (Wireshark)
- Intrusion Detection & Incident Response

Value:

- 24/7 Protection Against Cyber Threats
- Strong, Resilient Digital Ecosystem
- Compliance-Ready Security Framework

# AI & Machine Learning Automation (n8n and more)

...

AI & Machine Learning

- Custom Model Development (TensorFlow, PyTorch)
- Predictive Analytics & Insights
- Data-Driven Decision Support

Automation

- Workflow Automation & Integration (n8n, Zapier)
- Process Optimization & Efficiency
- Self-Optimizing Systems

Predictive Analytics

- Forecasting & Trend Analysis
- Risk & Opportunity Modeling
- Enhanced Business Decision-Making

Value:

- Smarter, Data-Driven Operations
- Time & Cost Savings Through Automation
- Scalable, Intelligent Systems

Our Vision

To build a buzzing hive of innovation where every project thrives, powered by the relentless spirit of the bee—connecting technology, creativity, and collaboration to create sweet success for our clients.

Like the bee's harmonious dance guiding its hive, we aim to lead the technology landscape with clarity, purpose, and unity—building a buzzing network of innovation that fuels progress and shapes the future.
